Article 36 cooperation

Article 36 of EFSA's Founding Regulation sets the basis for networking with and among Member State organisations that operate in the fields within EFSA's mission. Accordingly, EFSA's Management Board established and updates the Article 36 List – a list of competent organisations which are eligible to assist EFSA in its tasks e.g. through responding to calls for proposals (Article 36 grants).

- [Article 36 List](#)

Networking with these organisations facilitates the coordination of activities, exchange of information, development and implementation of joint scientific projects, as well as the sharing of expertise and best practices in the fields within EFSA's mission.

Article 36 list

The organisations included in the Article 36 List are designated by Member States with the support of EFSA Focal Points and shall comply with criteria set out in Commission Regulation (EC) No 2230/2004. Since organisations evolve and needs may change in response to scientific and policy developments, the List is regularly reviewed.
